The Royal Society of Tasmania invites you to a lecture by Professor Barry Brook:

**The Future of Humanity**

**Tuesday 6 June 2017, 8 pm**
Royal Society Room, TMAG, Hobart
All interested people are welcome

- Barry Brook, an ecologist and modeller, is an ARC Laureate Fellow and Professor of Environmental Sustainability at the University of Tasmania.
- Are humans near the end, or closer to the beginning, of our span as a species? Professor Brook will consider some forecasts of existential environmental threats facing humanity during the 21st century.
