

Research Assistant

The Research Assistant will work collaboratively within the new ARC Centre of Excellence for Australian Biodiversity and Heritage (CABAH) and the Dynamics of Eco-Evolutionary Patterns (DEEP) research group to provide quality research and administrative support.

In the role you will:

- Manage administrative and financial tasks associated with the University of Tasmania node of the ARC CABAH.
- Manage and participate in fieldwork, ensuring compliance with workplace health and safety standards and other legislative requirements.
- Undertake research tasks including data collection and management, analysis, and preparation of research for publication.
- Provision of high level advice and support to CABAH group members and other stakeholders.

You will be employed on a full time, 2 year fixed term basis.

To be considered, you will have:

- An appropriate science degree with relevant experience.
- Demonstrated ability to work independently and as a member of a high performance research team within a complex operating environment.
- Demonstrated well developed written and oral communication skills including the ability to exercise diplomacy, discretion and confidentiality.

Appointment to this role will be at HEO 4 and will have a total remuneration package of up to \$69608 comprising base salary within the range of \$59,137 to \$ 63,569 plus 9.5% superannuation.

For further information about this position please contact Barry Brook, Laureate Professor, barry.brook@utas.edu.au / (03) 6226 2655.

**Please note, your application must as a minimum include your resume, a cover letter and your responses to the position/selection criteria. The position description for this role is available on the University of Tasmania website.

Applications close Monday, 7 August 2017.
